

MALOTHU YASHWANTH

B.Tech (CSE - AI/ML)

📍 Hyderabad, India | 📞 +91-8978395130 | ✉ malothuyashwanth10@gmail.com | 🔗 LinkedIn | GitHub

PROFILE

Data Analyst & AI Enthusiast with hands-on experience in data analysis, Power BI dashboards, SQL, and Python. Skilled in prompt engineering and leveraging AI tools for automation and insights. Passionate about solving business problems using data-driven and AI-powered solutions.

SKILLS

Programming: Python, SQL

Data Tools: MS Excel, Power BI

Libraries: Pandas, NumPy, Matplotlib

AI Skills: Prompt Engineering, LLM Tools

Core Skills: Data Cleaning, Data Visualization, Data Analysis, Problem Solving, Business Insights

AI EXPERIENCE

- Used AI tools for data summarization, automation, and insight generation
- Designed structured prompts to extract meaningful outputs from datasets
- Applied AI tools to improve productivity and analytical workflows

PROJECTS

T20 Cricket Data Analytics | *Python, Pandas, Web Scraping, Power BI*

- Scraped player performance data and cleaned datasets using Pandas
- Built interactive Power BI dashboards to analyse player performance
- Identified optimal playing XI using data-driven insights
- Enabled better decision-making through structured data analysis

Sales Insights Dashboard | *Power BI, SQL*

- Designed Power BI dashboard to analyse Atiq hardware sales trends
- Queried and processed data using SQL for accurate reporting
- Generated insights to support business decisions
- Identified opportunities for improving revenue by ~7%

Customer Behaviour Prediction for Policy Eligibility | *Python, Pandas*

- Analysed customer data and built predictive models for policy eligibility
- Performed data preprocessing, feature engineering, and model evaluation
- Generated insights to improve targeting and decision-making

Signature Verification System | *Python, TensorFlow*

- Developed a deep learning-based system for signature authentication
- Built preprocessing pipelines and trained models for classification
- Integrated solution into a web-based application for real-time verification

Personal AI Assistant with Context Retention

- Built an AI assistant capable of storing and recalling user interactions
- Implemented context-based responses to improve personalization
- Enhanced user experience using persistent memory techniques

TECHNICAL EXPERIENCE

Programming Languages: Python, Java, JavaScript

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook

STRENGTHS

- Strong problem-solving and analytical thinking
- Ability to convert data into actionable insights
- Effective communication and teamwork
- Continuous learning mindset

EDUCATION

B.Tech – CSE (AI & ML) - Keshava Memorial Institute of Technology (2023 – 2027)

Intermediate (MPC) - Sri Chaitanya Junior Kalashala (2023)

SSC Greenwood School - (2021)

LANGUAGES

English, Telugu, Hindi
